### SUMMARY

Front-end developer with 2+ years of experience specializing in React.js, TypeScript, and Tailwind. Skilled in both independent and collaborative projects, with a strong focus on landing page, seamless UI/UX and website development

### TECHNICAL WORK EXPERIENCE

#### Software developer engineer - Frontend

9/2023 — present

Lorien Finance

Mumbai, Maharashtra

- Integrated RudderStack for event tracking and configured data pipelines to Google Analytics and MoEngage.
- Developed and launched the full Rebel Card website [Rebel-Card-link](#)
- Led the migration from Next.js Page Router to App Router, improving maintainability, and scalability of the codebase.
- Optimized the build process, reducing build time from 15 minutes to under 3 minutes s.

#### Software developer engineer - Frontend

10/2023 — 9/2025

Digital technologies Pvt. Ltd - Nimbbi

Mumbai, Maharashtra

- Engineered [Sonic Shop](#) a responsive checkout gateway with a tutorial view, optimized QA processes, reducing testing efforts by 20%, and allowing the sales team to demo checkout 2× faster for prospective clients, investors, etc.
- Led and implemented end-to-end features in the checkout flow, including address management and Cash on Delivery (COD) payment integration
- Reduced user-facing errors by 20% and provided data-driven insights into user behavior and payment preferences by developing a robust event-tracking system.
- Created a custom React hook to periodically call the transaction-enquiry API every 6 seconds and trigger execution before the status result.
- Built a unit testing infrastructure with 85% coverage using React Testing Library
- Launched the EMI payment method, with seamless user interaction and saved card functionality, reducing checkout time by 30% and decreasing clicks per transaction.
- Enhanced UPI payments for 10K+ transactions, integrating intuitive icons and clear text, and implemented the UPI Intent flow for a seamless experience.
- Utilized and integrated:** Redux, Debounce, Context API, TypeScript, Tailwind, Docusaurus, JIRA, React testing library.

#### Software Developer - Frontend Intern

3 months

- Launched a WIX store plugin webpage, serving 100+ users, enhancing accessibility on [nimbbi.biz](#).
- Redesigned the Spur dashboard with Tailwind, boosting UI consistency and increasing component re usability by 10%.
- Refined code efficiency by 15% through bug fixes, design enhancements, and refactoring, resolving high-priority tickets to improve system stability.
- Explored:** Redux, RESTful Api, Debounce, Context API, TypeScript, Tailwind, Docusaurus, JIRA, Bitbucket, Figma.

### PROJECTS

#### Command Center

- Developed and integrated key features— Downloads, Govern, and Payment Links—by implementing RESTful APIs for seamless CRUD operations
- Achieved 75% unit test coverage, ensuring high code reliability.
- Built on REMIX architecture, incorporating 100% route-based management, filters, downloads, and React Hook Form.

#### Weather App

- Based on the information provided by the openweather api this web app provides you with the weather data for over 200,000 cities.
- Developed using Node & Express majorly. Also, used postman for testing the API. This web app has reliability rate of 95% and in accuracy rate of 1%.

### EDUCATION

Bachelor's in Computer Engineering, Xavier Institute Of Engineering (9.18 CGPA)

1/2021 - 07/2023

Higher Secondary Certificate, Kendriya Vidyalaya Ambernath)

2018 - 2019

Secondary School Certificate, Kendriya Vidyalaya Ambernath (9.8 CGPA)

2016 - 2017

### SKILLS

#### Web Technologies

HTML, CSS, Javascript, Typescript, React js, Tailwind, OOPs, Responsive Web Design- UI/UX, Integrating REST Api, Unit Testing and Debugging
